

What a Difference a Summer Makes, Thanks to Antoine's Book & Guidance!

Justin Christian, Kansas University

Dear Antoine,

I would like to inform you that I have moved in here at Kansas University (KU) to start the school year.

From all of the books and advice you provided me with, I've started incorporating the leadership principles that I have learned in all the books that I read this summer. As a result, I've noticed a drastic change in how I interact with people. I was able to connect better with anyone I talked to including my coworkers. This summer has made me a much better problem solver when it comes to issues regarding emotions, people, and rapport.

After all that you have helped me through this summer I would like to say thank you for everything! I have never had somebody other than my parents so willing to help me succeed. With your guidance, I know I am more prepared for this upcoming school year. You have helped me grow as an individual, and I now know more about myself than I ever have.

Throughout my life I have been following in my two older brothers' footsteps. I learned early on that following a path that has already been laid is much easier than blazing your own. There was one downside to this that I just recently discovered. I was never following my dreams, setting my own goals, or plunging myself into something completely unknown. This hindered my growth as an individual and caused me to not fully understand what "my" goals were in life.

You have helped me understand these goals. Through your guidance, you have helped create a fork in the road that I once followed and start blazing a new trail. I now follow in nobody else's footsteps but my own. Thank you for helping me unlock the true potential in myself. I could not have done it at this time in my life without your help.

Sincerely,
Justin Christian
